in a **SEALED LONG BROWN ENVELOPE** shall:

- Contain the Project Name and PR Number of the contract to be bid in capital letters; 1
- Bear the name and address of the Bidder in capital letters;
- Be addressed to the Procuring Entity's BAC.

PROCUREMENT OF MOBILE PATROL CAR AND QCPD BACK TO BACK VEHICLE **Project Title:**

Quezon City Local Government BIDS AND AWARDS COMMITTEE

2/F Procurement Department, Finance Building Quezon City Hall Compound

For any clarification you may contact us at 89884242 loc. 8505/8709.

(SGD)ROWENA T. MACATAO

Chairperson, BAC- Goods and Services

TERMS AND CONDITIONS

- 1. Bidders shall **provide correct and accurate** information required in this form.
- 2. Price quotation/s must be valid for a period of thirty (30) calendar days from the date of submission.
- 3. Price quotation/s, to be denominated in Philippine Peso shall include all taxes, duties and/or levies payable.
- **4.** Quotation **exceeding** the Approved Budget for the Contract (ABC) shall be **rejected.**
- 5. Award of contract shall be made to the lowest quotation (for goods) or the highest rated offer (for consulting services) which complies with the minimum technical specifications and other terms and conditions stated herein.
- 6. Any interlineations, erasures or overwriting shall be valid only if they are signed or initialed by you or any of your duly authorized representative/s.
- 7. The City General Services Department (CGSD) shall have the right to inspect the goods.
- 8. Non-submission of eligibility documents shall mean disqualification of Quotation.
- 9. Liquidated damages equivalent to one tenth (1/10) of one percent (1%) of the value of the goods not delivered within the prescribed delivery period shall be imposed per day of delay. CGSD shall rescind the contract once the cumulative amount of liquidated damages reaches ten percent (10%) of the amount of the contract, without prejudice to other courses of action and remedies open to it.
- 10. Failure to follow these instructions will disqualify your entire quotation.

After having carefully read and accepted the Terms and Conditions, I/We submit our quotation/s as follows:

ITEM NO.	ITEM & DESCRIPTION	UNIT OF ISSUE	QTY.	UNIT PRICE	ITEM TOTAL
1	QCPD BACK TO BACK VEHICLE	Unit	4		
	TWIN/DOUBLE CAB				
	Minimum specifications:				
	1.Engine				
	a) Fuel: Diesel				
	b) Piston displacement: 2800cc				
	c) Horsepower: 85 or higher				
	d) Torque: 18kg - m or higher				
	2.Body and Frame: Hard Top, Crew/Double				
	Tap				
	Overall Length: 4700mm (minimum) - 5100 mm				
	(maximum)				
	Overall Width: 1600mm (minimum) - 1700mm				
	(maximum)				
	Overall Height: 1700mm (minimum) - 1810mm				
	(maximum)				
	Wheelbase: 2800mm (minimum) - 3100mm				
	(maximum)				
	Track, Front: 1340mm (minimum) - 1500mm				
	(maximum)				
	Rear: 1400mm (minimum) - 1500mm				
	(maximum)				
	3.Steering: Left-hand drive, Power steering				
	4.Suspension, Front: Independent				
	Rear: Leaf spring				
	5.Transmission: Manual, 5-speed forward				
	1 reverse, neutral, floor-shift				
	2 speed transfer case				
	6.Rim size/Wheels: 15 or 16 inches. Aluminum				
	alloy				
	7. Tires: Front: 8 PR. custom/high profile radial				
	Rear:-do-				
	Spare:-do-		I	1	

8. Brake System: Front: disc		
Rear: drum		
Park: emergency hard brake mechanical type		
operating on rear wheels		
9. Built-in Aircon System:		
10 Pader Color & Markingo, White with		
10. Body Color & Markings ; White with		
appropriate markings specified in		
NAPOLCOM Resolution No. 99-002 dated		
January 5, 1999 (Approving the Standard Color		
and Markings		
for PNP Motor Vehicles, Sea craft and Aircraft)		
a. Unit logo/seal on the left and right doors,		
centered using reflectorized plastic		
sticker with a dimension of 3inches in height		
and width.		
b. The "Unit Name" placed above the logo, in an		
arc from the edge of the		
lower blue stripe using red reflectorized plastic		
sticker with a height of 3inches.		
The width and thickness of the letters should be		
proportional to the height of		
the letter. The unit name maybe written in		
abbreviated form if necessary.		
c. Name of "Main Mother Unit" name placed		
below the immediate supervising		
unit name using red reflectorized plastic sticker		
with a height of 4inches. The		
width and thickness of the letters should be		
proportional to the height of the		
letter. The unit name maybe written in		
abbreviated if necessary.		
d. "Immediate Supervising Unit" name placed		
below the immediate supervising		
unit name using red reflectorized plastic sticker		
with a height of 4inches. The width		
and thickness of the letters should be		
proportional to the height of the letter.		
The unit name maybe written in abbreviated if		
necessary.		
e. End-user's "Unit Name" placed above		
"PULISYA" on the front hood, in an arc		
using red reflectorized plastic sticker with a		
height of 4inches. The width and thickness of the letters should be proportional		
to the height of the letter. The unit name maybe		
written in abbreviated form if necessary.		
f. "Vehicle Number" placed at the rear doors		
using red reflectorized plastic		
sticker with the following dimensions: 7inches		
height, 5inches width and 1 inch thick.		
g. Name of "Immediate Supervising Unit"		
placed at the left portion of the		
bumper using red reflectorized plastic sticker		
with a height of 4inches.		
The width and thickness of the letters should		
be proportional to the height of the letter.		
h. Blue stripes on both sides of the cab in line		

with the logo/seal using	
reflectorized plastic sticker, 2 each, 1 1/2inches	
width spaced 1/2inch apart.	
i. "Vehicle Number" placed at the right potion	
of the bumper using red	
reflectorized plastic sticker with a height of	
4inches. The width and thickness of the	
numbers should be proportional to the height	
of the number.	
j. Acronym of the "Main Mother Unit and	
"Vehicle Number" placed on the roof	
top of the rear body, using red reflectorized	
plastic sticker with a height of 14inches.	
The width and thickness of the letters should be	
proportional to the height of	
the letter.	
k. End-user's "Unit Name" placed vertically at	
the left post of the rear body	
using red reflectorized plastic sticker with a	
height of 2inches and 3inches width. The unit	
name maybe written in abbreviated form if	
necessary.	
i. Name of "Immediate Supervising Unit"	
placed vertically at the right post of	
the rear body using red reflectorized plastic	
sticker with a height of 2" and	
width of 3inches. The unit name maybe written	
in abbreviated form if necessary.	
m. "Vehicle Number" placed horizontally	
below the End-user's "Unit Name" and	
"Immediate Supervising Unit" using red	
reflectorized plastic sticker with a	
height of 3 ½ inches. The width and thickness	
of the numbers should be	
proportional to the height of the number.	
n. End-user's "Unit Name" and "Vehicle	
Number" is placed at the middle of the	
rear canvass cover, using red reflectorized	
plastic sticker with the following	
dimensions: 5inches height, 4inches width and	
1inch thick. The unit name maybe written in	
abbreviated form if necessary.	
o. "PULISYA" on the front hood and should be	
10inches from the upper edge of the	
hood, centered and the letters spaced 2 inches	
apart using red reflectorized plastic	
sticker with the following dimensions: 7inches	
height, 5inches width and 1 1/2inches	
thickness.	
p. "Vehicle Number" on the front hood 5inches	
below "PULISYA", centered using red	
reflectorized plastic sticker with a dimension of	
7 inches height, 5inches width and 1 1/2inches	
thickness.	
q. Markings for the donor (if vehicle is	
donated) should be located on both sides	
of the body between the unit name and rear	
tires using red reflectorized	
plastic sticker.	
r. Body Color is white with blue stripes.

"PULISYA" on the front hood, in an arc		
using red reflectorized plastic sticker with a		
height of 3 ½ inches. The width and		
thickness of the letters should be proportional		
to the height of the letter. The unit name maybe		
written in abbreviated form if necessary.		
f. Name of "Immediate Supervising Unit"		
placed at the right side of the bumper		
using red reflectorized plastic sticker with a		
height of 4inches. The width and		
thickness of the letters should be proportional		
to the height of the letter.		
g. Blue stripes on both sides of the body in line		
with the unit logo/seal using		
reflectorized plastic sticker, 2 each, 1 1/2inches		
width spaced ½inch apart.		

h. "Vehicle Number" on the left and right rear doors in line with the blue stipe, centered using red reflectorized plastic sticker with the following dimensions: Tinches height, Sinches width and 1½ inches thickness. i. "Vehicle Number" placed at the left side of the bumper using red reflectorized plastic sticker with a height of 4 inches. The width and thickness of the numbers should be proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of 14 inches. The width and thickness of the letters should be proportional to the height of the height of the height of the height of the letter. k. "Vehicle Number" is placed on the rear portion of the roof top (behind the blinker) using red reflectorized plastic sticker with a height of 14 inches. The width and thickness of the letters should be proportional to the height of 14 inches. The width and thickness of the letters should be proportional to the height of fibe the test. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5 inches. The width and thickness of the letters should be proportional to the height of the letter. n. Find-users "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5 inches. The width and thickness of the letter. n. Find-users "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5 inches. The width and thickness of the letter. n. "Velkicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5 inches. The width and thickness of the letters should be proportional to the height of the letter. n. "Velkicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with the following dimensions. Tinches height, 5 inches width and 11/2 inches t				
centered using red reflectorized plastic sticker with the following dimensions: Zinches height, Sinches width and 1½ inches thickness. i. "Vehicle Number" placed at the left side of the bumper using red reflectorized plastic sticker with a height of dinches. The width and thickness of the numbers should be proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of 14 inches. The width and thickness of the letters should be proportional to the height of the height of the height of the for top top (behind the blinker) using red reflectorized plastic sticker with a height of 14 inches. The width and thickness of the letters. The width and thickness of the letters should be proportional to the height of 14 inches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5 inches. The width and thickness of the letters should be proportional to the height of the letter. m. End-user's "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5 inches The width and thickness of the letter. n. "Vehicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5 inches The width and thickness of the letter. n. "Vehicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5 inches The width and thickness of the letters should be proportional to the height of the numbers should be proportional to the height of the numbers should be proportional to the height of the numbers should be proportional to the height of the numbers should be proportional to the height of the numbers should be proportional to the height of the numbers should be proportional to the height of the numbe	h. "Vehicle	Number" on the left and right rear		
with the following dimensions: 7inches height, 5inches width and 1½ inches thickness. i. "Vehicle Number" placed at the left side of the bumper using red reflectorized plastic sticker with a height of dinches. The width and thickness of the numbers should be proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of lainches. The width and thickness of the letters should be proportional to the height of the letter. k. "Vehicle Number" is placed on the rear portion of the roof top (behind the blinker) using red reflectorized plastic sticker with a height of 1 dinches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters should be proportional to the height of the letter. m. End-users" "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters hould be proportional to the height of the letter. n. "Vehicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the numbers should be proportional to the height of the number. o. "PULISYA" on the front hood and should be 10inches rom the upper edge of the hood, centered and the letters spaced 2inches apart using red reflectorized plastic sticker with the following dimensions: 7inches height, 5inches width and 11/2inches thickness. p. "Vehicle Number" on the front hood 5inches below "PULISYA" using red	doors in lir	ne with the blue stipe,		
with the following dimensions: 7inches height, 5inches width and 1½ inches thickness. i. "Vehicle Number" placed at the left side of the bumper using red reflectorized plastic sticker with a height of dinches. The width and thickness of the numbers should be proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of lainches. The width and thickness of the letters should be proportional to the height of the letter. k. "Vehicle Number" is placed on the rear portion of the roof top (behind the blinker) using red reflectorized plastic sticker with a height of 1 dinches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters should be proportional to the height of the letter. m. End-users" "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters hould be proportional to the height of the letter. n. "Vehicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the numbers should be proportional to the height of the number. o. "PULISYA" on the front hood and should be 10inches rom the upper edge of the hood, centered and the letters spaced 2inches apart using red reflectorized plastic sticker with the following dimensions: 7inches height, 5inches width and 11/2inches thickness. p. "Vehicle Number" on the front hood 5inches below "PULISYA" using red	centered u	sing red reflectorized plastic sticker		
7inches height, 5inches width and 1 ½ inches thickness. i. "Vehicle Number" placed at the left side of the bumper using red reflectorized plastic sticker with a height of the height of the proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of 14inches. The width and thickness of the letters should be proportional to the height of the letters. k. "Vehicle Number" is placed on the rear portion of the roof top (behind the blinker) using red reflectorized plastic sticker with a height of 14inches. The width and thickness of the letters should be proportional to the height of 14inches. The width and thickness of the letters should be proportional to the height of the letter. L. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters should be proportional to the height of the letter. m. End-user's "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5inches The width and thickness of the letters should be proportional to the height of the letter. n. "Vehicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters with a not the height of 5inches. The width and thickness of the letters of the width and thickness of the letters appared to the height of 5inches. The width and thickness of the letters with a neight of 5inches with and thickness of the letters appared to the height of 5inches with and thickness of the letters appared to the height of the number. o. "PULISYA" on the front hood and should be 10inches rom the upper edge of the hood, centered and the letters spaced 2inches apart using red reflectorized plastic sticker with the following dimensions: 7inches height, 5inches with and 11/2inches thickness.				
thickness. i. "Vehicle Number" placed at the left side of the bumper using red reflectorized plastic sticker with a height of sinches. The width and thickness of the numbers should be proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of Hinches. The width and thickness of the letters should be proportional to the height of the letter. k. "Vehicle Number" is placed on the rear portion of the roof top (behind the blinker) using red reflectorized plastic sticker with a height of 14 inches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of binches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the letters. m. Find-users" "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5inches The width and thickness of the letter. n. "Vehicle Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5inches. The width and thickness of the numbers should be proportional to the height of the number. o. "PULISYA" on the front hood and should be 10inches rom the upper edge of the hood, centered and the letters spaced 2inches apart using red reflectorized plastic sticker with the following dimensions: 7inches height, 5inches width and 11/2inches thickness. p. "Vehicle Number" on the front hood 5inches below "PULISYA" using red				
bumper using red reflectorized plastic sticker with a height of 4 inches. The width and thickness of the numbers should be proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of 14 inches. The width and thickness of the letters should be proportional to the height of the letters of the letter with a height of 14 inches. The width and thickness of the letter with a height of 14 inches. The width and thickness of the letters should be proportional to the height of the letter. I. Name of "Immediate Supervising Unit" is placed at the left portion of the bumper using red reflectorized plastic sticker with a height of 5 inches. The width and thickness of the letter should be proportional to the height of 5 inches. The width and thickness of the letter should be proportional to the height of 5 inches. The width and thickness of the letters should be proportional to the height of 5 inches The width and thickness of the letters should be proportional to the height of the letter. m. End-user's "Unit Name" placed at the center of the bumper using red reflectorized plastic sticker with a height of 5 inches The width and thickness of the letters should be proportional to the height of the letters hould be proportional to the height of 5 inches The width and thickness of the unmber should be proportional to the height of 5 inches The width and thickness of the number. "Webside Number" placed at the right portion of the rear bumper using red reflectorized plastic sticker with a height of 5 inches The width and thickness of the number. "PULISYA" on the front hood and should be 10 inches from the upper edge of the hood, centered and the letters spaced 2 inches apart using red reflectorized plastic sticker with the following dimensions: 7 inches height, 5 inches width and at 1 1 / 2 inches thickness. P. "Vehicle Number" on the front hood 5 inches below "PULISYA" using red				
bumper using red reflectorized plastic sticker with a height of 4 inches. The width and thickness of the numbers should be proportional to the height of the number. j. Acronym of "Main Mother Unit" placed on the roof top (front of blinker) using red reflectorized plastic sticker with a height of 14 inches. The width and thickness of the letters should be proportional to the height of the letters of the letter with a height of 14 inches. The width and thickness of the letter with a height of 14 inches. The width and thickness of the letters should be proportional to the height of the letter. I.
