50205010	ENGAGEMENT OF COURIER SERVICES FOR THE DELIVERY OF DOCUMENTS LINKED TO THE AUTOMATED DOCUMENT DELIVERY SYSTEM OF THE BUSINESS PERMITS AND LICENSING DEPARTMENT OF QUEZON CITY I. OBJECTIVE To ensure faster, efficient, timely and secure delivery of official documents and other printed matter to taxpayers, the Business Permits and Licensing Department (BPLD) needs to engage the services of a qualified and licensed courier service provider (provider). II. SCOPE OF SERVICES AND REQUIREMENTS 1. Pick-up of documents and other matters from the BPLD and delivery to the addressee, within one (1) to three (3) calendar days from the date of pick-up in a sealed envelope pouch or packet. The provider must guarantee an uninterrupted service, except for fortuitous events and acts of nature 2. In instances where the addressee/s cannot be located, or delivery is not effected at the first attempt for a reasons not due to the fault of the provider, the latter shall pursue the delivery up to three (3) more attempts provided that it shall immediately inform in writing the BPLD for further instructions. The BPLD may then modify delivery details to assist in the succeeding deliveries subject to protocols and existing policies of the BPLD. Should the three (3) succeeding delivery attempts remain unsuccesful, the documents and other matters shall be immediately declared as “undelivered”. As such, the provider shall return the undelivered documents and other matters to the BPLD within three (3) working days, stating the reasons and proof of non-delivery thereof. 3. Release of documents and other printed matter shall be made only to the business owner or to its authorized representative, and only upon presentation and verification by the provider of the authenticity of the identification card/s presented by the addressee or its authorized representative. 50205030	SUPPLY AND DELIVERY OF INTERNET DATA SUBSCRIPTION FOR THE AUTOMATED AUDIT INSPECTION SYSTEM OF THE BUSINESS PERMITS AND LICENSING DEPARTMENT OF QUEZON CITY I. INTRODUCTION 'The Business Permits and Licensing Department (BLPD) of Quezon City is mandated to provide effective systems, procedures, and practices in the issuance and renewal of business permits, regulating the nature, conduct and/or operations of various business activities within the City. Part of its regulatory function is the monitoring of compliances of all business establishments with ancillary permits and clearances through the newly developed Automated Audit Inspection System (AIAS). Over the years, the BPLD, through its Inspection Division, manually conducts inspection and verification of all business establishments within the city. 'With the implementation of the audit inspection system, Inspectors and Verifiers will be able to conduct inspection efficiently and effectively, whether for compliance monitoring or an on-the-spot inspection. One of the major requirements of the AIAS that will be used by the Inspection Division is data subscription for the device that Inspectors and Verifiers will use for such purposes. II. OBJECTIVE 'Consistent with the automation of all systems and processes of the BLPD, the AIAS of the Inspection Division is designed to enhance the performance and effective delivery of the BPLD’s mandated regulatory function. All License Inspectors shall be issued devices for their monitoring or inspection usage. Although the devices to be issued are wi-fi ready, availability of internet access especially during actual monitoring or inspections is necessary to ensure real time submission of reports. Mobile data shall be the secondary internet connection and will serve as a redundant connection to augment primary internet connection, especially in remote places where wi-fi is not available. III. PROJECT SCOPE OF WORK 1. The project covers the supply and delivery of one hundred (100) mobile data subscriptions. 2. Engagement of the service will be until December 31, 2023, which shall commence from the issuance of the Notice to Proceed and execution of the contract. 3. Monthly mobile data allocation must be for a maximum of 100 gigabytes (GB) only per subscriber identity module (SIM) card with a minimum internet connection speed of at least 20 megabits per second (Mbps). If the data cap of 100 GB is reached within a given billing period, the service shall be temporarily cut off until it is automatically replenished for the next billing period. Access to data shall be restored upon replenishment. 4. Dashboard for data usage shall be provided by the service provider for monitoring purposes of the subscriber. 5. Service provider shall replace any and all defective, lost, or damaged SIM cards immediately after receipt of written notification by the BLPD. 50299010	A PUBLIC RELATIONS CAMPAIGN ON THE QC: BIZ EASY AUTOMATION OF THE BUSINESS AND LICENSING DEPARTMENT OF QUEZON CITY I. RATIONALE Even before the pandemic, several businesses, government offices and agencies have already introduced means where the public could avail their services online. With a stable internet connection, one can easily access the online services of a business or a government agency for different purposes like application, posting of order, payment, or receipt of order among others. Pursuant to the mandate of the Business Permits and Licensing Department (BPLD) to provide effective and efficient systems, procedures, and practices in the issuance and renewal of business and occupational permits, and in compliance with the Ease of Doing Business and Efficient Government Service Delivery Act of 2018, the BPLD launched on October 02, 2020 the QC Biz Easy Online Unified Business Permit Application System (OUBPAS), an online processing system for business permit applications. These efforts became more relevant today amidst the country’s present situation and the government’s call for continued vigilance to prevent the spread of the COVID-19 virus. Not only did these innovations help in minimizing people’s Risk of	BPLD	Yes	PB	1st Quarter				GF	2,000,000.00	2,000,000.00	0.00	Permits Registration Program

	exposure to the virus, it also makes the transactions at the BPLD easier, fast and more convenient. Individuals and groups of people intending to open a business in Quezon City can easily do so online, anytime and anywhere. While the information regarding this significant improvement had been consistently disseminated to the public prior and after its launch through various media such as social platforms and press releases, it is still necessary to widen the reach of such information in order to achieve the goal of the local government of Quezon City to become the preferred destination for businesses. The continuous posting and uploading of information about QC Biz Easy on the internet and social media platforms will allow the BPLD to reach a far greater number of people. II. OBJECTIVES The objectives of the project are as follows: 1. Promote large scale awareness on the innovations in the application for and renewal of business permits introduced by BPLD, as well as the advantages and benefits of such innovations. 2. Encourage the members of the business community in Quezon City to utilize the innovations in the application for and renewal of business permits.3. Promote Quezon City as a business-friendly and future-ready city. III. 50212010	Pest Control (application and Maintenance) Termite treatment and other pest control services WORK COVERAGE HIGH RISE, ANNEX BLDG. AND LEGISLATIVE CIVIC CENTER BLDG., ALL OFFICES WITHIN THE Q.C. HALL COMPOUND FREQUENCY OF APPLICATION A. One general treatment for massive termite control B. Monthly spraying for flying and crawling insects (12 applications for one year) C. Every months rodenticide application. (12 applications for one year) I.Scope of Work: A. GENERAL PEST CONTROL 1.Treatment for Rodent Treatment by baits, laying of anti-coagulant preparations in areas used as passageways & harboroges of rats & mice, based on a system of permanent/semi-permanent bait station. These rodenticides provide good control without presenting any hazard to products of personnel. However, if the degree of infestation should ever warrant it, acute/chronic rodenticides must be used but only afte closae consulaiaon with the client & then only under the strict supervision of the contractor. Supplementary control methods, such as by mecahnical traps for cats & sticky board for rats, will aslo be employed if the situation so warrants. 2. Treatment for Cockroach Treatment by spraying or misting will be carried out specially in the harborages & breeding places of cockroches, such as pantries, toilets area & drainages. Cracks and crevices & hidden surfaces such as inside drawer units, cupboards area and drainages & cabinets shall also be treated with insecticidal solution with residual effect, in which case all content thereof must be removed prior to the schedules date of service. where spraying or misting is inadvisable or forbidden, dusting or cockroach gel baiting will instead be done. 3. Treatment for fly and Mosquito Treatment by spraying or misting will be carried out specially in the harborages & breeding places of cockroches, such as pantries, toilets area & drainages. Cracks and crevices & hidden surfaces such as inside drawer units, cupboards area and drainages & cabinets shall also be treated with insecticidal solution with residual effect, in which case all content thereof must be removed prior to the schedules date of service. where spraying or misting is inadvisable or forbidden, dusting or cockroach gel baiting will instead be done. Mist Blower/misting will be done in the whole premises, in accordance with a pre-arranged schedule of treatment. Larviciding of known breeding places and harborages of files and mosquitoes will also be carried out. Where misting is unadvisable or forbidden, spraying will instead be done. ITEM DESCRIPTION / SPECIFICATION Pest Control (application and Maintenance) 4. Frequency of Service *Monthly residual spraying with safe and appropriate chemicals for the control of cockroaches, ants, flees and other crawling pest affecting public health * Monthly mist blower/misting with non-toxic pyrethroid chemicals for the control of mosquito, flies and other flying insects/pests. * Monthly application of anti-coagulant rodenticides, ratttraps, rat glue and other effective devices for the control of rats and mice. * Treatment of garbage areas, drainages, stagnant water and other pest breeding areas within the premises. * Application of insecticide gel baits for cockroach control on areas where spraying is not applicable. After General Treatment Work * With or without infestation, assessment and inspection will again be conducted after two weeks. B. CONTROL OF TERMITES 1. General survey and thorough inspection of the entire premises to determine the location & extend of subterranean infestation 2. Application of termiticide solution into live mounds found within the premises. 3. Drilling of 5/8 inches dia. Holes immediately adjacent to the outside or inisde face of the wall, near door jamb and whatever accessible using portable rot-hammer drill. 4. Application of termiticide solution into each drilled hole using power sprayer into each sub slab injector. 5. Patching of drilled holes. 6. Soil injection of the ground immediately adjacent to the outside face of the wall using power sprayer with sub slab injector of the wall using power sprayer with sub slab injector 7. Sparying of termiticide solution on all wooden parts, cracks, crevices, and other possible passageway and harborages of subterranean termite. 8. 50299990	LOCAL ECONOMIC INVESTMENT PROMOTIONS OFFICE - Deployment of licenses to various department, create visualization, data views and technical support in case of dashboard error 1. Facilitate the deployment of the necessary licenses to appropriate departments/offices that will be involved in the Quezon City Centralized Dashboard Project. 2. The following licenses will be assigned accordingly. - Creator license - designed for users who create content. This can include the designn, cleaning and curation of data sources, which others will use to analyze governed data, or the creation of visualizations and dashboards with which other users will interact. It also includes designing governance and permissions models that control which information users may find. - Explorer License - provides governed authoring and data exploration capabilities for users who do not need the full data transformation, or the ability to publish or connect to raw data sources. Explorers may access and analyze published data, create and distribute own dashboards and manage content built or have been given the permission to edit. - Viewer licenses - view and interact with published visualization and dashboards. These users can be given permission to access published content and interact with guided drill paths and filters. Viewers can also subscribe to dashboards to get periodic updates and receive data driven alerts. 4. The dashboard system must be able to create the following Visualization/Data views. The graphics/charts will depend on the type of data and dashboard visualization requirements, to wit: • Area Chart (Basic and Stacked) • Bar Chart • Box Plot • Bullet Graph • Calculated Columns • Z-scores, KPIs • Cards or Text Table • Column Chart • Density marks/Heatmaps • Doughnut Chart • Funnel Chart • Gantt Chart • Gauge Chart • Highlight Table • Histogram • Line Chart • Maps and Geopgraphic Data Analysis • Packed Bubble Chart • Pareto Chart • Pie Chart • Population Pyramid • Scatter Plot • Treemap • Combination Charts 5. 10901020	Supply, Installation, Testing, and Commissioning of the Quezon City Strategic Human Resources Management Department Platform (SHRMD) Project Description The QC-SHRMD is a cloud-based platform with the following components: *Training Needs Analysis *Learning Management System *Training Registration *Pre and Post Training Assessments *Training Video Hosting *Strategic Performance Management System (SPMS) Project Scope of Work The service provider will provide the City with a system with the following specifications: i. The Quezon City Strategic Human Resources Management Department Platform (QC-SHRMD) is SSL-protected, web-based, mobile-responsive, and accessible using the most recent versions of Chrome, Firefox, and Safari. ii. QC-SHRMD allows employees to self-register using their emails. Registered user will have a profile page where information such as name, assigned and home departments/units, contact details, and gender can be edited. HRMD can disable accounts at any time. iii. QC-SHRMD will have sections accessible to the public and sections accessible only to registered and logged in users. Publicly accessible sections of the platform include pages for About Us, Recruitment, Employee Handbook, Orientation Videos, FAQ, Training Program, Internship Program, and Volunteer Program. These publicly accessible pages will be informative in nature and will not be scaled up into a full-blown information management systems. All forms are accessible only to logged in employees. iv. The platform allows employees to fill up and submit forms for Training Needs Analysis (eTNA), Individual Learning and Development Plan (ILDP), and Survey. v. Submitted eTNA forms are saved in the system database and can be marked as Draft or Final. Draft eTNA's are still editable whereas Final eTNA's are not. vi. Only one final eTNA per employee per year is allowed. Platform will automatically remind employees to renew their eTNA's every year. vii. eTNA scores are automatically computed. HRMD can use the collated scores per Department/Unit to identify areas for improvement and determine the necessary trainings to offer to employees. viii. In the ILDP, employees can see their areas for improvement and the needed training based on their scores in the submitted eTNA. ix. Employees can indicate in the ILDP the trainings they have taken. x. ILDP's are saved in the system database. Saved ILDP can be downloaded and printed by the employee. The printed ILDP will be reviewed and signed by the employee's immediate supervisor and uploaded back to the system. xi. The platform has a training registration page and when an employee registers for a training, the employee's ILDP will automatically be updated by the platform to include the type and name of the training, date of the training, and remarks from HRMD. The remarks will indicate if the employee completed the training and passed all requirements. xii. Employees can fill up a Survey/Feedback form about the eTNA and ILDP processes or the platform In general. xiii. All submitted eTNA and ILDP forms are viewable to HRMD's focal team. xiv. The platform will generate pertinent reports about the submitted eTNA's per Department/Unit. xv. HRMD can post details of an upcoming training including type, title, date, and links to materials and videos. They can also specify questions for the pre-assessment and post-training evaluation and assessment. xvi.	CA	No	PB	2nd Quarter				GF	14,000,000.00	0.00	14,000,000.00	Continuing Appropriation

	Depending on the type of training, employees will be required to complete the pre-assessment and post-training evaluation and assessment. xvii. Each employee will have a calendar page in the platform. An employee can reserve a spot in the posted training and the reservation will appear in the calendar page. xviii. QC-SHRMD will have an LMS to host videos uploaded by HRMD. The videos are accessible only to training registrants and within a start and end schedule specified by HRMD. Platform will track the videos viewed by each training registrant. xix. HRMD can view registered employees for a specific training, along with their submitted data and assessment answers. xx. QC-SHRMD will host Office Performance Commitment and Review (OPCR), Division Performance Commitment and Review (DPCR), and Individual Performance Commitment and Review (IPCR) forms for Strategic Performance Management System (SPMS). xxi. OPCR form can only be answered by a designated SPMS Administrator per Department/Unit. Submitted OPCR can be marked as Draft or Final. Draft OPCR is still editable while Final OPCR is not. xxii. Employees can answer their own IPCR form. They can also view their Department/Unit’s OPCR to ensure that their answers are aligned to the goals of their Department/Unit. Submitted IPCR can be marked as Draft or Final. Draft IPCR is still editable while Final IPCR is not. xxiii. The designated supervisor of the employee can view, approve, or reject the employee’s IPCR. xxiv. The DPCR can be filled up by the Division Chief and Department Head. DPCR can be edited and rated by the Department Head. xxv. The platform will generate pertinent SPMS data for HRMD. xxvi. The platform will generate pertinent Learning and Development and SPMS dashboard figures by Department, by Section, by Division, by Salary Grade Levels, and as individual profiles. xxvii. The system will implement industry standard measures to protect user data and prevent unauthorized access. A firewall will be implanted for secured cloud connection. xxviii. HRMD reserves the right to request minor changes in the specifications as long as the changes are consistent with the listed scope and objectives of the platform. xxix. The platform will be fine-tuned and maintained by the service provider for one (1) year. Fine-tuning and maintenance will be limited to the features listed in this document. xxx. The cloud-based hosting will operate for one (1) year and subject to renewal thereafter. A minimum of 8 GB memory, 2 virtual CPU, and 120 GB storage will be allocated for the system and its database. A separate scalable on-demand cloud storage will be allocated for all videos and uploaded documents. xxxi. The system and database will be backed up daily. xxxii. The system will conform with applicable data privacy laws. xxxiii. QC-SHRMD, including source code and data captured and generated by the system, will be owned and controlled by the City. If the service agreement expires or is terminated the data on cloud can be retrieved without additional cost to the City. xxxiv. The service provider will provide all necessary trainings to all department representatives that will be invited by HRMD for the usage of the system. A separate training for key HRMD personnel will be conducted for the administration and management of the system.

50213030	Smart streetlight-ready LED Luminaire This shall be the minimum specification for the LED luminaire. Above the minimum specification shall be accepted but to no additional cost to the City Government, LED luminaires should be SMART-Streetlight ready. A. Physical Characteristics I. Heat Sink: Extruded Aluminum alloy material with an anodizing finish in light gray color; II. Dimension: Length not more than 600mm, width not more than 350mm, and height not more than 150mm; III. Modularity: LED arrays, drivers, surge protection devices, and controllers should be modularly replaceable, without the need to dismantle other components; IV. Boom angle adjustable design: at least 0 – 90 degrees to suit the lamp post with different boom angle and the different width of roads; V. Weight: Maximum of 7 kilograms; VI. Ingress Protection: IP66 or higher for housing and all individual system components; VI. Mechanical Impact Protection: IK08 or equivalent to 5 joule (drop of 1.7 kilogram object from 29.5 cm height); VII. Lens Cover: High transmittance rate Optical PC Lens cover with Anti-UV material; IX. Shape: Generally circular / elliptical / rectangular in configuration B. Electrical Characteristics I. Safety: Luminaire complies with the latest edition of the Philippine Electrical Code (PEC); II. Wire Type: THHN (copper stranded) using terminal blocks for connections; III. Wire Electrical Insulation: Complies with PEC class 1; IV. Grounding: PEC compliant; V. Operating Voltage: 230 volts AC, 60 Hz with fluctuation tolerance of ±10%; VI. Operating Current: Maximum 700 mA; VII. System Power: Not more than 75 watts; VIII. Surge Protection Standard: EN61547 / IEC61000-4-5, both positive and negative polarities are applied 1KV to the input AC power port; IX. Surge Protection Function: Series connection type with the indication of end-of-life status; X. Total Harmonic Distortion: ≤ 15%; XI. Power Factor: ≥ 0.95 XII. Maximum Operating Temperature (Ambient): 50°C; XIII. Dimmable Power Supply / Driver: The driver shall enable 0-10V DC / PWM interface dimming control to perform Dim requirement such as 80%, 60%, 40%, 20% of full lumen output. It shall also have a programmable feature to allow pre-programming of variable dimming light levels. C. LED Performance and Photometry I. Minimum Luminous Efficacy: not less than 110 lumens/watt; II. Correlated Color	CA	No	PB	1st Quarter				GF	26,657,344.00	26,657,344.00	0.00	Quezon City Integrated Energy Efficient Street Lighting Program

	Temperature (CCT): 5000K – 6000K; III. Minimum Color Rendering Index (CRI) not less than 70; IV. Lumen maintenance of LED source after 6,000 hours of operation: ≥ 96% of original light output or ≥ 96% lumen maintenance; V. Minimum operating life of luminaire before the Lamp Lumen Depreciation (LDD) reaches 70% of its initial value: LM80 report indicates L70 over 50,000 hours; VI. Road Luminance: (75W) Luminance average Eavg 20 Lux & 0.4 uniformity ratio minimum allowed (Minimum/Average) or Emin/Eavg) and Minimum Emax 30 Lux above under lamp for streetlighting post with the following specifications: mounting height of 8 mts, overhang of 1.5 mts, boom angle of 10 degrees, boom length of 2.0 mts, single row pole arrangement, pole distance of 25 mts, and road width of 8.0 mts. VII. Lumen Output: not less than 8,250 lumens VIII. Photometric Distribution IES Type I Short. The LED luminaire should be Smart Streetlight – ready (with NEMA socket for 7 Terminals and cover, with dimmable driver), which shall be subject for Field Testing.
