The arc-shaped design seamlessly reflects light in three directions with one light source, and the highly reflective fabric is suitable for strobes, LED lights and natural sunlight. The interlocking curved tubes, metal rods and screw knobs allow for tool-free assembly. Tubes and rods can slip through the reflector's rod pockets and stretch it out. The stand mount tilts at 90° for desired angles (stand not included). The reversible reflector with black and silver surfaces and the double-sided cover with gold and white colors can offer you four light effects for different photographic needs. ***** Nothing Follows *****	unit	1	10,700.00	10,700.00
