Ø Cassette capacity: max. 100 cassettes Ø Glass beakers, solvent-resistant and dish- washer-proof, with beaker carriers and minimum/maximum filling marks. Ø Membrane keyboard and LCD screen. Ø Locking key to prevent inadvertent changing of programmed parameters. Ø Indication of station and program parameters such as number of tissue baskets, remaining infiltration time, real time, start time (delayed start time), overall run time and end of run time. Ø Audible alarms, error messages and warning codes for "paraffin solid" status. Ø Manual and automatic mode of operation. 9 freely selectable programs. Infiltration time of up to 99 h 59 min, individually programmable for each station. Ø Immediate start and delay start up to 9 days. Permanent tissue basket movement (can be switchedON/OFF) at 3 second intervals in both manual and automatic operation. Ø 1 minute drain time between stations for reduced carry-over. Ø Automatic immersion of tissue basket in a station in case of mains power failure. Ø Power failure indication including station number and time lapsed in excess of programmed infiltration time. Ø Automatic reheating of wax before basket transfer to a wax bath. Ø Crank for manual raising and rotation of carousel-for immediate tissue basket removal or transfer to the next station. STEAM inspires children's creativity and critical thinking and offers many opportunities for exploration ad open-ended activities. STEAM Learning with hands-on resources for children to explore, build and share their understanding of the world around them while playful aspect of the set keeps them motivated to continue to learn, inside and outside of the classroom. Key Features •295 bricks, including gears, tracks, pulleys, boats, and figures • 8 double-sided building inspiration cards with 16 models to build •Build slides, carousels, shooting galleries, and much more! •5 activity idea cards to inspire playful learning Lessons: 1. Familiarize students with the set and its characters. 2. Familiarize students with the special elements in the set. 3. Learn about how and why things roll, and predict and measure distances using non-standard units. 4. Learn about how and why things float, and design and test sails. 5. Learn about probability, making predictions, and recording data. 6. Learn about different forms of art, and they will create and role-play a show. 7. Learn about how gears work. 8. Learn about cause and effect by creating chain reactions. 234 DUPLO bricks incl. motor with color sensor, 5 colored action bricks and 2 railroad switches. Five (5) boxes of Animal Bingo - children will explore collaborative play, follow game rules, and take turns as they build the colorful animal models depicted on the game cards. They will engage in shape and color recognition, match and count animals, and learn to follow instructions in a fun and engaging way. Key Lessons: Shapes and colors, Matching and counting; Taking turns. Additional Features: Features visual instruction detailing how to play the game. 10901020	Service Provider for the training workshop and crafting of digitized SLMs The project aims to craft digital courseware using existing SLMs. These learning resources can then be utilized by teachers and learners whether in full face-to-face or blended modality. This project anchors its roots from the initiative of a handful teachers back during the first year of the pandemic wherein they digitized some Supplementary Learning Resources for the benefit of the entire Division. In order to assure quality output that may be utilized for an indefinite number of years, it is proposed that experts in digitization and courseware development be brought in to serve as facilitators/trainers for this project. Project Scope of Work 1. The service provider shall organize and provide 40 hours face-to-face training and hands-on workshop, including meals and venue, for the teacher-digitizers of each subject area for all subject areas. 2. The service provider shall deliver/provide the appropriate software and resources for the development of digitized materials. 3.
