The Quezon City Small Business and Cooperatives Development and Promotions Office (QC-SBCDPO) is mandated to spur inclusive growth and development by stimulating entrepreneurship and enterprise enhancement amongst micro, small enterprises, and cooperatives (MSECs), through various programs, projects, and activities for their continued growth and sustainable development.

MISSION

To promote, support, strengthen, and encourage the establishing, continuing viability, and sustainable growth and development of innovative micro and small enterprises and cooperatives

VISION

Micro, Small Enterprises and Cooperatives (MSECs) as key drivers in Quezon City's inclusive economic growth.

PROGRAMS

PANGKABUHAYANG QC (PBQC)

Pangkabuhayang QC (PBQC) is a livelihood training and capital assistance program that was initially created as an economic recovery program by the Quezon City Government during the COVID19 pandemic. PBQC is open to microentrepreneurs and vendors, returning OFWs, PWDs, unemployed solo parents and completers of entrepreneurship training. Capital assistance amounting from P10,000 to P20,000 is given to beneficiaries who are determined to start and grow their business. During payout, beneficiaries undergo a short training and networking session with National Government Agencies and Private Partners that provide business opportunities.

PROUDLY ORIGINAL PRODUCTS OF QUEZON CITY (POP QC)

POP QC is the local market-access program of the QC-SBCDPO for micro and small enterprises and cooperatives (MSECs) in Quezon City, which showcases the artistry and innovation of City-honed products through trade shows, bazaars, and exhibits. The program serves as the official branding of QC-made products.

QC PAYDAY FRESH MARKET

QC Payday Fresh Market is a bi-weekly trade fair featuring fresh and organic food and other products, particularly from urban farms, producers cooperatives, and other micro and small enterprises.

QC COMMUNITY SAVINGS GROUP (CSG)

A Community Savings Group (CSG) is a collective and self-help savings and credit association where a group of people contribute money toward a common fund. This system serves as an alternative to formal financial institutions which require a lot of documentary requirements, and illegal lenders like predatory 'five-six' money lenders or loan sharks. Through the CSG, members, are provided with opportunities to rise above their current situation as they gain access to low interest credit and interest-bearing savings facility.

QC COOPERATIVE DEVELOPMENT PROGRAM

As home to the largest number of cooperatives in NCR, the QC Cooperative Development Program, in collaboration with the Cooperative Development Authority and other partners, facilitates the formation of new cooperatives through the Coop Clinic, pre-registration seminars (PRS) and online registration assistance.

For registered cooperatives, the program provides various training to capacitate coop officers and linkages with strategic partners as well as assistance in their compliance with regulatory requirements. The city also registered its very own Quezon City Credit Surety Fund Cooperative in 2023 to provide cooperatives and their members ease of access to financing.

QC ESSENTIALS

QC Essentials provides product training and livelihood opportunities for vulnerable communities, groups and other sectors-in-need. What started as an economic recovery program for the unemployed due to forced community restrictions, this program has expanded into our very own QC Brand - from everyday household essential products like alcohol and soap to handcrafted pillows, accessories and other products.

QC CERTIFIED ROADMAP PROGRAM

The QCertified: FDA Product Registration and Licensing Assistance Program features a roadmap of various trainings, workshops, testing, and other relevant activities to assist interested MSECs in acquiring permits, such as Philippine Food and Drug Administration's (FDA) License to Operate (LTO) and/or Certificate of Product Registration (CPR).

KYUSI NIGHTS: COMMUNITY NIGHT MARKET

The Kyusi Nights: Community Night Market initiative aims to showcase and discover promising micro and small enterprises, and cooperatives in each barangay or community in Quezon City by providing them with a market access platform. Through the Kyusi Nights, interested barangays will be capacitated on how to conduct and operate their own weekend trade events featuring various high-quality products made by local community artisans and entrepreneurs.

ENTREPRENEURSHIP DEVELOPMENT PROGRAM

The QC-SBCDPO conducts regular entrepreneurship training sessions and seminars for MSECs in Quezon City, covering various areas of interest to promote entrepreneurship among QCcitizens. Conducted in partnership with national government agencies, academe and private partners, these trainings aim to enhance their skills and knowledge and to provide mentorship, guidance, and empowerment towards the growth of their business.
